EXPERIENCE

SERVIFY | PRODUCT ENGINEER 2 (FRONTEND)
April 2022 – Present

- Led white-labeling and development of Servify web app for various client brands, enhancing global device management platform functionality and user experience.
- Created a central dashboard for all registered service centers, highlighting ratings on parameters like fake requests and customer volume, reducing fake claims by 30%.
- Developed new features and fixed bugs for B2B product apps as per client demands, including a new interface for claim proof submission and automated Plan claims requests, improving user trust and satisfaction.
- Collaborated on seamless integration of frontend and backend elements, resulting in 20% fewer customer support tickets.
- Migrated class-based React codebase to functional with React 18, improving code maintainability, development efficiency, and readability.
- **Tech Stack:** Javascript,ReactJS,Css,Redux,RiotJS

DEVSNEST | FRONTEND DEVELOPER
April 2021 – April 2022

- Established frontend architecture for EdTech platform's B2B B2C products, enhancing user base from 500 to 50K.
- Headed the frontend team in crafting the Learning Management System and to build interactive interfaces for a web-based learning platform using Monaco Editor.
- Led migration of codebase from ReactJS and JavaScript to TypeScript and Next.js, reducing load times.
- Built & maintained customized and highly responsive an internal component library to streamline UI development and foster collaboration.
- **Tech Stack:** ReactJS,NextJs,Bootstrap,Tailwind,React-Query

PROJECTS

MEMORY NOTES |REACTJS, MATERIAL-UI, NODEJS, EXPRESSJS, MONGODB
https://haider-note.netlify.app/

- Memory Notes is a fully responsive MERN-based social media platform designed for effortless sharing and interaction of memories. The platform features robust authentication through email, incorporating both login and signup functionalities using custom email and Google OAuth. It offers dynamic pagination, advanced search and filtering options, post liking, post deletion, and a comments section to foster community engagement.

POSTMAN LITE |JAVASCRIPT, HTML, CSS
https://haider000.github.io/PostmanLite/

- A Postman app clone where users can make Get, Post, Put and Delete API calls and see API responses similar to Postman.

SUDOKU |REACTJS, SCSS
https://async-sudoku.netlify.app/

- Classic Sudoku Web App Game on which a user can play sudoku. Users can use the hint option to get the hint after selecting a position. The App signals on each move if the move made is correct or not

EDUCATION

UNITED COLLEGE OF ENGINEERING AND RESEARCH
BACHELOR OF TECHNOLOGY
COMPUTER SCIENCE AND ENGINEERING
July 2017 - 2021 | Greater Noida, UP
GPA: (8.42/10)

SKILLS

LANGUAGES
Proficient :
- Javascript

Familiar:
- Typescript
- Python

LIB/FRAMEWORK
- ReactJs
- NextJs
- ReduxToolkit
- Zod
- NodeJS
- React-Query(TanStack Query)
- Bootstrap
- Tailwind

OTHERS
- HTML
- CSS
- Git
- Github
- Jira/AGILE Development
